

Dear 18th Annual Clean Your Streams Day Volunteers,

Every year, hundreds of **Partners for Clean Streams** volunteers—people like you!—take to the waters and remove the garbage that doesn't belong there. In 2013 alone, volunteers removed over 16,000 pounds of trash on Clean Your Streams Day. Your efforts really add up!

Partners for Clean Streams is dedicated to the waterways of the greater Toledo area, but we depend on your support. So, as your group comes together and joins 1,000 other volunteers at the 2014 Clean Your Streams Day, we want to know:

CAN YOUR GROUP BRING THE MOST CHANGE?

We challenge each group that is registered for this year's event to pool dimes, nickels, quarters and pennies. **Search under sofa cushions! Raid piggy banks! Empty car cupholders! Set out a jar in the office!** We will weigh your group's collective Change to see which group brings the most.

Bring your Change with you to the Appreciation Picnic **AFTER** the cleanup. Each group's collective Change will be weighed and weight totals will be marked on a board at the Picnic. The group with the heaviest Change wins the Challenge and will receive a **Mystery Award!**

To get the Change collection started, tape this half sheet below to a jar and set it in your office, break room or counter or pass it around scout or church meetings. Your loose change can add up to make lots of Change for our local rivers and streams!

Get Trash out of the River and Change out of Your Pocket! Help us make our local rivers Clean, Clear and Safe!

We are volunteering in the **18th Annual Clean Your Streams Day** on September 20th and will join 1,000 other volunteers to remove trash from rivers in the greater Toledo area. **Partners for Clean Streams** is dedicated to local waterways, but depends on our support. So we will be donating all of the collected change to support Partners for Clean Streams and our local Rivers.
